About Warmup®

Warmup® is a certified ISO 9001:2015 UK based manufacturing Plc creating and delivering electric, hydronic and hybrid underfloor heating solutions. Our vision is to change the way people heat their homes so that they live in the most comfortable, efficient and sustainable environments.

With more than 2.5 million systems installed in 72 countries, Warmup is the world's best-selling floor heating brand. We are a British-based research driven company, focusing on developing innovative heating solutions that bring energy-efficient warmth to our customers' lives. Warmup won the Queen's Award for Enterprise for International Trade, 2020.

The combination of Warmup's heating wire with fluoropolymer coatings (on the inner wires and the outer protective jacket), our 6iE®, 3iE® and Tempo Thermostats are patented, trade mark protected, designed and owned by Warmup.

We began as, and remain, a knowledge and research driven UK business, making proprietary world-leading products. Warmup® has a tradition for quality and innovation. Warmup is the only underfloor heating company whose products are European.
